A Glimpse into the GISS World

GISS is one of the GEMS schools under Egypt Education Platform (EEP), part of a network of 25+ academic institutions across Cairo, Alexandria, Somabay, and El Gouna. As Egypt's fastest-growing education provider and recognized as a pioneer in the education sector, EEP is renowned for its forward-thinking strategies and unwavering dedication to achieving the highest standards of excellence.

Under EEP, GISS is part of the GEMS Education network, one of the most prestigious private education providers in the world. This affiliation brings numerous advantages to our school, including access to global expertise and innovative teaching methods. As a result, we are able to deliver an exceptional educational experience that empowers our students to succeed. ***GISS is coming to Somabay soon!***

Excellence in Education

As the first GEMS school in Somabay, GISS aims to provide an unmatched learning journey of academic excellence for each and every one of its students. Our curriculum begins with the International Early Years Curriculum (IEYC), nurturing students through play-based activities and fostering a love for learning. As students progress, they transition to the International Primary Curriculum (IPC), where they explore subjects through engaging themes and projects, developing essential skills like critical thinking and problem-solving.

In the middle years, the International Middle Years Curriculum (IMYC) challenges students to think critically, creatively, and independently, preparing them for the complexities of the modern world. Finally, the American Diploma in high school offers a rigorous academic experience that culminates in a globally recognized qualification. By combining these world-class curricula, GISS offers a holistic learning experience like no other.

A journey of learning, a lifetime of impact awaits.
